Saman (Sam) Abyar

IT Support & Network Administrator · Full-Stack Web Developer

SUMMARY

IT and network administrator with 15+ years of experience supporting Windows and Linux servers, Cisco networks, VPNs and end users. Since 2024, a full-stack web developer building production sites with Next.js, React, WordPress and Stripe for local businesses and nonprofits. Recently completed the Cybersecurity Pathway at Montgomery College. Seeking a remote or hybrid role in IT support, help desk, network administration or web development.

EXPERIENCE

Full-Stack Web Developer & Founder

04/2024 – Present

Freelance / My Studio Ink · Maryland

- Built the full platform for **Sam's Driving School**: custom WordPress theme, class-management plugin (registration, Zoom class automation, lesson booking, student documents), Stripe payments and student dashboard.
- Run the school's Linux production server (nginx, Varnish, PHP-FPM, Cloudflare) with a staging site, scripted deploys with automatic rollback and full backups; hardened security with 2FA, lockouts and daily security reports.
- Manage the school's Google Ads campaigns and purchase conversion tracking.
- Technical director, Iranian Presbyterian Church of D.C.: built its bilingual Next.js platform, including a projector presentation system for Bible verses and worship songs.
- Built the trilingual My Studio Ink site with an admin panel, product catalog and Firebase photo uploads; developed internal tools for invoicing, inventory sync and AI-assisted content.
- Building an AI voice receptionist agent (in progress).

Help Desk & Network Administrator

04/2019 – 03/2024

Adlme Co · Tehran, Iran

- Provided Tier 2/3 support for corporate and remote sites.
- Configured and maintained enterprise web and application servers.
- Managed LAN/WAN hardware, switches and routers.
- Wrote automated deployment scripts and scheduled tasks.
- Wrote SOPs and led onboarding for new users.

IT & Network Administrator

05/2017 – 03/2019

Niras

- Installed and patched Linux and Windows Server environments.
- Deployed VPN concentrators for secure remote access.
- Set up Wi-Fi compliance, bandwidth shaping and subnet policies.
- Maintained server racks and RAID storage arrays.

EDUCATION

B.S. Computer Software Engineering
Islamic Azad University · 2012

CERTIFICATIONS

Cybersecurity Pathway Certificate
Montgomery College (MC IT Institute & TechMAP) · 2026
